PROFILE

Dedicated and enthusiastic Software Developer who has 2+ years of working experience in designing, developing, and maintaining software applications, Eager to learn new technologies and contribute to impactful software solutions. Passionate about software development, Problem-solving, and performance optimization.

TECHNICAL SKILLS

1. Programming Languages: Java, C, C++
2. Web Technologies: HTML, CSS, JSP, JavaScript
3. Database Systems: MySQL
4. Frameworks & Tools: Spring Framework, REST APIs, Micro services, Apache Click, Servlets

SOFT SKILLS

Communication, Learning Ability, Adaptability, Critical Thinking, Active Listening, Problem Solving, Time Management, Organization

WORK EXPERIENCE

- **Software Engineer**

Ospyn Technologies Pvt Ltd, Trivandrum | 2022-2024

1. Designed and implemented modules and features using Java, adhering to best practices and coding standards.
2. Collaborated with cross-functional teams including project managers, designers, and QA engineers to deliver high-quality software solutions within project timelines.
3. Conducted code reviews and participated in peer programming sessions to ensure code quality, readability, and maintainability.
4. Resolved complex technical issues and bugs in existing software modules, providing timely and effective solutions.
5. Attended client meetings to gather and clarify project requirements, ensuring alignment between client expectations and development team deliverables.

PROJECTS

- **A Kerala Government Project**

Role : Developer/ Tester

Technologies Used : Java, Spring, JSP, MySQL, JavaScript, HTML, CSS

Responsibilities:

1. Led the maintenance of Kerala Governments major website, improving performance and reliability.
2. Fixed functionality bugs and incorporated additional checks, resulting in a 30% improvement in module stability.

3. Upgraded Java, MySQL, logging utilities, security frameworks, caching systems, and other components to enhance system performance and security.

- **Management System of a Leading Enterprise in Middle East**

Role : Developer/ Tester

Technologies Used : Maven, SVN Repository, Java 8, MySQL

Responsibilities :

1. Led the development of a Jewellery Management System for a major Jewellery retailer in the Middle East region.
2. The system efficiently handled various aspects of Jewellery processing, enabling better inventory management and tracking.
3. Implemented features that improved business workflows and customer engagement, ultimately contributing to the streamlined management of the Jewellery lifecycle.

EDUCATION

- **Bachelor of Technology | 2015-2019**

Electronics and Communication Engineering

ACE College of Engineering, Trivandrum

- **Higher Secondary Education | 2013-2015**

Govt. Higher Secondary School, Trivandrum

- **Secondary School Education | 2013**

Mother India International Residential Public School, Attingal

CERTIFICATIONS AND WORKSHOPS

- AI/ML Workshop – TechByHeart
- Diploma in Embedded Systems & IoT – CDAC
- Embedded Systems Training – KELTRON
- IoT Training – Richardo Technics
- Arduino Workshop – IEEE Student Branch MEC
- Raspberry Pi Workshop – Marian IEDC & Tryasra Tech
- Paper: Performance Comparison of Massive MIMO with and without Channel Coding – NCREEE'19
- Paper: Performance Improvement in Massive MIMO – 12CN2K19, Mangalam College
